## V-ZPL-HITEMP-A-500 Technical Parameters

Focal length:  $f = 5.0 - 15.0\text{mm}$  continuously variable Zoom  
Image plane format:  $1/3''$  sensor  
FOV:  $62^\circ - 23^\circ$   
Relative aperture: F5.0 – Close  
Focus range:  $0.3\text{m} - \infty$   
Lens mount: CS  
Dimension:  $\phi 30.0 \times 500\text{mm}$   
Direction of view: Forward  
Housing: Aluminum, black anodized  
Continuous ambient temperature range:  $-30^\circ\text{C} - +200^\circ\text{C}$

V-ZPL-HITEMP-A-500 is a new High Temp pinhole lens product development. Front optical element is recessed 15mm from pinhole front protects the element for robust longer lens life operating in hot hostile environments.

- Continuous variable zoom focal length, aperture.
- Megapixel resolution
- 2% or less distortion
